## **Local Employee Celebrates 10 Years with Delta Liquid Energy**

Bakersfield, Calif., (November 19, 2008) – Recently, Cris Mitchell celebrated his tenth year working for Delta Liquid Energy (DLE) a local propane company. Mitchell started his employment with DLE in 1998 as a Service Technician. Just a few months after his start at DLE, he was promoted to Manager of the Bakersfield office. “Cris has proven to be a tremendous asset to the company in many ways,” says Robert Jacobs, Vice President of Retail operations.

Mitchell says he owes his longevity at DLE to the relationships he has built during the duration of his employment, “I like the stability of the job and the people I work for and with. To sum it up, it’s what I know!”

Mitchell’s responsibilities at DLE include: setting up routing for service technicians, scheduling, client communications and billing. Before becoming a DLE employee, Mitchell traveled all over the state of California moving drilling rigs and transporting crude oil. Later he worked in the propane industry for ten years with a different propane company.

Outside of work Mitchell enjoys working on and customizing cars. He married his high school sweetheart, Kim. They have been married for 29 years and together they enjoy remodeling their home and taking long rides on their Harley Davidson motorcycle. They have three children and four grandchildren with twins due in May.

Delta Liquid Energy is a third-generation, family-owned and operated propane marketer headquartered in Paso Robles, California. The company has been in business since 1936 and operates nine service facilities throughout California.
