Two Anniversaries and a Grandchild!

Delta Liquid Energy Manager celebrates two 10 year anniversaries and welcomes his first Grandson

SANTA PAULA, CALIF., (February 28, 2008) – Recently, manager Dave Plotkin, celebrated his tenth year working for Delta Liquid Energy (DLE), a local propane company. Plotkin was promoted to manager of the Santa Paula branch in 1999. In and out of the office Plotkin is found working with customers, checking sites, and handling new accounts and finances. Even though Plotkin has plenty to deal with as manager, his longevity and loyalty to DLE is ode to the fact that “DLE has great people to work with and I like the areas I work in,” he says.

“Dave has proven to be a tremendous asset to the company in many ways,” says Robert Jacobs, Vice President of Retail operations. “His leadership qualities with his staff have evolved into creating an environment dedicated to providing reliable and courteous customer service.”

Plotkin helped start up DLE’s Sun Valley plant (which is now known as the Sylmar plant), prior to becoming a manager for the Santa Paula branch. He covered a variety of jobs during this time including assistant manager, office clerk, customer service representative, and delivery driver.

Before becoming a DLE employee, Plotkin was a limo driver which paid for his education at Pierce College and later, College of the Canyons. He was more than happy when that stint was over. “Being a limo driver was killer,” he recalls. Plotkin also worked as a supervisor for a plumbing company in Santa Clarita, California.

Plotkin is proud to be celebrating his ten-year wedding anniversary with his wife, Debbie. They have three children Alex, 24, Christina, 20, and Vanessa, 18. And if two, ten-year anniversaries were not enough, son Alex and his fiancé are having their first child this month, making Plotkin a proud new grandfather. Plotkin plans to take time off work to be in South Carolina when grandson Alex Frank is born this month.

Delta Liquid Energy is a third-generation, family-owned and operated propane marketer headquartered in Paso Robles. The company has been in business since 1936 and operates nine service facilities throughout California.

The Santa Paula office is located at 1620 Lemonwood Drive and can be reached at 805-525-3311. This office services Ventura County. For more information about Delta Liquid Energy, please visit <http://www.deltaliquidenergy.com>.
